

BULLET CAUSES PANIC IN SCHOOL

Fired from House Opposite, It Whizzes Through to Rooms Where Classes Are in Session, Narrowly Missing Teachers.

It was not until Harris Katz, thirty-three years old, of No. 33 Ridge street, was arrested in the Essex Market Court to-day to explain why he fired a shot from his flat last night that it was known that a bullet had passed through the windows of the Ridge street school, passed through two classrooms and embedded itself in the wall. Miss Helen M. Gales, a teacher, was cut on the cheek by flying glass. Miss Jennie Mendenhall, the principal, was also cut by flying glass and the bullet whizzed by her head.

The pupils screamed and started to run from the rooms in a wild haste to get out. The teachers, with the aid of John Hall, the janitor, succeeded in quieting them only after strenuous efforts.

The Ridge street police were notified of the shooting, and Detective Spencer went across the street and to the apartments of Katz, where he found a number of men and women in masculine costume celebrating Purim.

Spencer searched the apartment and found the shell of a 38-calibre bullet.

The bullet in the school was of that calibre. Katz, Spencer said, admitted that some one in his apartment had fired the bullet, but who it was he did not know. He said he heard the shot and the breaking of glass. He was arrested.

In the Essex Market Court to-day Magistrate Plummer said he did not see how he could hold Katz responsible and discharged him. But he directed the detectives to make further investigation.

DROVE NAILS IN BOARD.

Miss Catherine Crow and Landis in Bellevue's Insane Ward.

Leonard Mirkle, a machinist, who said he lived "somewhere on Third avenue," was sent to Bellevue Hospital's insane pavilion by Magistrate Steinert to-day.

A policeman found him seated on the curb near Twenty-first street, with a crowd of 100 persons waiting to drive three nails in a board. Business in the neighborhood was suspended and the case had trouble in passing.

JERSEY SCHOOLS FIRE-TRAPS

Fully One-Third of Buildings in Jersey City Unequipped with Modern Appliances, Inspector Reports.

Jersey City has just discovered that fully one-third of her twenty-nine schools are fire-traps and that some of the newest school buildings are unequipped with modern appliances tending to lessen the danger to life in case of fire. Many of the buildings with wooden stairways and floors have no fire-escapes.

The discovery was made by Building Inspector Saul, who has just completed an investigation of all the school houses in Jersey City. He made his report to the Board of Aldermen, which instructed him to notify the School Board to conform with the stringent regulations recently adopted by the Legislature relative to fire protection in schools and tenements.

Unless action is taken by the School Board at once the matter will be taken before the Grand Jury.

MRS. FERRIS NOT CONCERNED.

In the account of an attack by Leonard Diamond upon an aged woman at Coscob, Conn., as printed in The Evening World yesterday, an error was committed in saying that Diamond boarded with Mrs. Frank W. Ferris.

In justice to Mrs. Ferris, The Evening World wishes to correct the error. Diamond boarded where they found him, in the boat boarding-house.

Wife Aged 84 Is Saved from Collapse

Mrs. H. Crowell, on the Verge of Nervous Prostration, Was Saved from a General Breakdown and Is Kept Vigorous and Hearty by the Regular Use of Duffy's Pure Malt Whiskey.

"We have used Duffy's Malt Whiskey in Our Family for a Long Time," Mr. Crowell Writes, "and as an Aid to the Aged and Infirm it is Unequaled."

"We have been using Duffy's Pure Malt Whiskey in our family for a long time and find it a splendid tonic and stimulant for the aged and infirm. It is especially beneficial in cases where the health is run down from disease, worry or overwork, and as an aid to the aged and infirm it is unequalled. My wife has had occasion to use Duffy's more than myself, and as she is eighty-four years old and is troubled with weak spells, it is the only thing that has saved her from physical collapse."—H. Crowell, Dayton, O., Oct. 25, 1904.

Weak and sinking spells accompanied by nervousness, inability to retain or assimilate food for the proper nourishment demanded by a normal, healthy body, are certain indications that the stomach is out of order and is unable to perform the important and indispensable work assigned to it by nature.

Duffy's Pure Malt Whiskey

Is the pure and perfect tonic-stimulant and invigorator for the absolute cure and prevention of dyspepsia, indigestion, nervous prostration, flatulency, grip, pneumonia, consumption and all disorders of the bowels and stomach, bronchitis, grip, pneumonia, consumption and all diseases of the throat and lungs. It is endorsed by ministers of the Gospel and physicians as the purest, most wholesome and nourishing tonic-stimulant for the aged and infirm, and is the only thing that has saved her from physical collapse.

It is a promoter of good health and longevity, and by its regular and judicious use thousands of men and women have been kept hale and hearty and enabled to reach the century mark in full enjoyment of their mental and physical powers.

The purity of Duffy's Pure Malt Whiskey is guaranteed; it contains no fuel oil and is the only whiskey recognized by the Government as a medicine.

CAUTION—Duffy's Pure Malt Whiskey is the only absolutely pure malt whiskey, and when you seek to purchase a bottle be sure you get the genuine and refuse dangerous substitutes and imitations placed on the market by unscrupulous persons for profit only, and which are a menace and detriment to the health, doing vastly more harm than good. Look for the trade-mark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken.

Sold by all druggists and grocers, or direct, \$1.00 a bottle. Medical booklet and advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

The New Spring La Vidas.

CORSETS

The old corset idea was to exaggerate the figure. The corset maker has grown more sane of late years and the designers of the new school have produced garments which grade off the awkward spots of the figure into gracefully pleasing proportions without inflicting an iota of discomfort to the wearer. This sanity reaches its highest perfection in

La Vida Corsets

a qualified garment made one pair at a time by hand labor and filled with springy whalebone, which retains its elasticity, to the end that the corset possesses permanently proper outline. We are pleased to present the new spring models of La Vida, for the consideration of which we request your inspection.
